PROFESSIONAL SUMMARY

AWS Cloud Engineer with hands-on experience operating and improving the reliability of production AWS environments. Proven ability to troubleshoot distributed systems, lead high-severity incidents, and implement automation and recovery strategies that improve system availability and resilience. 4x AWS Certified at Associate, Professional (DevOps Engineer – Professional), and AI levels with SME Certified in Amazon OpenSearch. Experienced in on-call operations, incident response, and continuous service improvement aligned with SRE and DevOps best practices.

EXPERIENCE

November 2023 - Current

Cloud Engineer, *Amazon Web Services*

- Led on-call incident response for production AWS environments, owning service recovery during high-severity incidents under strict SLAs.
- Delivered global technical training on AWS Analytics services, reducing escalation rates and mean time to resolution (MTTR) by 6.3%.
- Contributed to the Tooling and Automation team, improving operational tooling across AWS Analytics services. Led development of an AI-driven log analysis tool for Amazon OpenSearch Service, automating log analysis and reducing Root Cause Analysis (RCA) escalations.
- Mentored 10+ new-hire engineers on Amazon OpenSearch Service, improving incident response consistency and response times across the EMEA region.
- Delivered a live, in-person Amazon Q Business GenAI workshop to enterprise customers, collaborating with 3 Engineers and 2 Solutions Architects to demonstrate real-world application use.

July 2022 – October 2023

Cloud Support Associate, *Amazon Web Services*

- Managed enterprise AWS support cases across all severities, maintaining operational stability and availability for production workloads.
- Supported AWS Analytics and Streaming services including Amazon OpenSearch, MSK, and Kinesis, alongside core services such as EC2, IAM, VPC, CloudWatch, and S3.
- Replicated customer environments to diagnose and resolve complex distributed system and infrastructure issues.
- Advised customers on AWS architecture best practices, upgrades, and performance optimizations, improving availability, capacity, and health of analytics workloads.

EDUCATION

2021

ADVANCED DIPLOMA: INFORMATION AND COMMUNICATION TECHNOLOGY,
Durban University of Technology

NQF Level 7

2018 - 2020

Diploma in ICT: Applications Development,
Durban University of Technology

NQF Level 6

CERTIFICATIONS

- AWS Certified DevOps Engineer – Professional (DOP-Co2)
 - AWS Certified Solutions Architect – Associate (SAA-Co3)
 - AWS Certified Developer – Associate (DVA-Co2)
 - AWS Certified AI Practitioner (AIF-Co1)
 - AWS OpenSearch Subject Matter Expert (SME)
 - Cisco Networking Academy - Introduction to Cybersecurity
 - Cisco Networking Academy - Introduction to IoT
 - Cisco Networking Academy - Networking Essentials
 - Cisco Networking Academy - NDG Linux Unhatched
-

SKILLS

AWS Cloud Architecture

Infrastructure Reliability and Availability

High-Severity Incident Management

Root Cause Analysis

Distributed Systems Troubleshooting

Capacity Planning

Service Recovery

Log and Metrics Analysis

Customer-Facing Technical Leadership

Operational Excellence
